Hi Jennifer,

Here is an update. Let me know if you need more information.

Donlin Gold Project

On December 14, the Corps of Engineers published in the Federal Register a Notice of Intent (NOI) to prepare an EIS for the Donlin Gold Project in Southwest, Alaska. The EPA is a Cooperating Agency, along with the BLM, USFWS, DOT (Pipeline and Hazardous Materials Safety Administration), and ADNR. Cooperating Tribal Governments include Crooked Creek, Chuathbaluk, Napaimute, and the Kuskokwim Watershed Council. Public scoping meetings will begin in mid-January 2013, starting in Bethel, Aniak, and Crooked Creek, and continue to other communities in the Yukon-Kuskokwim region until March. The EPA team plans to provide scoping comments to the Corps by the end of March 2013.

Also, in column C, you misspelled Cindi Godsey and you should strike out Victor Ross (retired).

Good morning,

I hope you all are having a very enjoyable holiday season!

9/13/2018

It is almost time for the next meeting of the EPA-Corps-State of Alaska High Priority Projects group. I would appreciate it if you would forward any update for your projects to me no later than COB Wednesday, January 2. I prefer that you can make any edits in some color other than red or black to the attached spreadsheet but will accept whatever format is most convenient for you.

Thanks in advance for your time on this.
